

AAAP Addiction Board Review Course at CPDD: A Clinical Review of Substance Use Disorders

June 12, 2010

Fairmont Princess Hotel
7575 East Princess Drive
Scottsdale, AZ

Topics include:

- ◆ General Concepts
- ◆ Nicotine Use Disorders
- ◆ Opioid Use Disorders
- ◆ Alcohol Use Disorders
- ◆ Psychosocial Treatment of Addictions
- ◆ Stimulant Use Disorders (Cocaine and Methamphetamine)

Learning Objectives

At the conclusion of this course participants should be able to:

1. Discuss new advances in the pharmacotherapy and psychotherapy of alcohol, cocaine, opioid, and nicotine addictive disorders
2. Discuss the epidemiology of substance use disorders and their co-occurrence with other mental disorders
3. Discuss the role of genetics in the risk for developing alcohol and other drug use disorders
4. Identify the major neurobiological pathways involved in the addictive disorders
5. Identify the molecular mechanisms that are altered following alcohol and other drug use disorders

This course is jointly sponsored by the Medical University of South Carolina and American Academy of Addiction Psychiatry. This activity has been approved for AMA PRA Category 1 Credit.
