New Guidebooks from American Psychiatric Publishing, Inc. Address Needs of Homeless Persons, Board Preparation

Arlington, Va. – New resource guides from American Psychiatric Publishing, Inc. (APPI) offer innovative perspectives on two important issues: the treatment needs of homeless persons with mental illnesses and preparation for the American Board of Psychiatry and Neurology Examination in Psychiatry, which psychiatrists and residents must pass for Board certification. APPI is the world's premier publisher of books, journals and multi-media on psychiatry.

Each guide can be viewed on APPI's Web site under the following titles: *Clinical Guide to the Treatment of the Mentally Ill Homeless Person*, and *The American Psychiatric Publishing Board Prep and Review Guide for Psychiatry*.

[Clinical Guide to the Treatment of the Mentally Ill Homeless Person](#)

Edited by Paulette Marie Gillig, M.D., Ph.D., and Hunter L. McQuiston, M.D.

This book offers expert advice, based on scientific evidence, on the difficult challenges in working with underserved homeless populations. It is a concise, practical work that gives busy clinicians the information they need; it not only is more up-to-date than existing publications, but also offers case- and site-based content that provides more hands-on, practical advice. Written by clinicians for clinicians, it offers approaches to therapy and rehabilitation from the vantage point of the treatment environment, from street to housing and everything in between.

[The American Psychiatric Publishing Board Prep and Review Guide for Psychiatry](#)

Edited by James A. Bourgeois, O.D., M.D., Robert E. Hales, M.D., M.B.A., and Stuart C. Yudofsky, M.D.

This unique resource covers both basic and clinical sciences for psychiatrists and psychiatry residents preparing for Part 1 of the American Board of Psychiatry and Neurology Examination in Psychiatry. It focuses exclusively on the examination's psychiatry topics, providing a comprehensive review of material and minimizing the need to consult multiple sources. Drawing on the latest editions of the *APPI Textbook of Clinical Psychiatry*, the *APPI Textbook of Neuropsychiatry and Clinical Neurosciences*, and their "Essentials" editions, this review guide is authoritative work that can be used with confidence.

About the American Psychiatric Publishing, Inc.

American Psychiatric Publishing, Inc. (APPI) is the world's premier publisher of books, journals, and multimedia on psychiatry, mental health and behavioral science. APPI offers authoritative, up-to-date and affordable information geared toward psychiatrists, other mental health professionals, psychiatric residents, medical students and the general public. Visit APPI at www.appi.org.

About the American Psychiatric Association:

The American Psychiatric Association is a national medical specialty society whose more than 36,000 physician members specialize in the diagnosis, treatment, prevention and research of mental illnesses including substance use disorders. Visit the APA at www.psych.org and www.HealthyMinds.org.
