**Brief Biographical Sketch:**

Raquel E. Gur, M.D. Ph.D., is Professor of Psychiatry, Neurology and Radiology at the University of Pennsylvania in Philadelphia. Her academic career has been devoted to the study of brain function in schizophrenia. After completing her Ph.D. in Michigan State University she joined the University of Pennsylvania, first as a Fellow, then as a Medical Student, a Resident in Neurology and Psychiatry and a Faculty member. Dr. Gur has directed the Neuropsychiatry Section and the Schizophrenia Research Center and has established an interdisciplinary program dedicated to advancing the understanding of the pathophysiology of this complex disorder through the application of diverse strategies, from neurobehavioral to molecular. The research has been supported by the NIMH, including a Mental Health Clinical Research Center, a MERIT Award, a Senior Scientist Award, a Conte Center for Neuroscience of Mental Disorders, and a training grant. Over the years, the research findings have been presented in professional meetings and published in leading scientific journals. This work has been carried out in large and well characterized samples of research participants, with commitment to advance knowledge while meeting patient care needs.
