APA DSM-V Work Group Member

Name, Degree: Francis J. Keefe, Ph.D.

Role(s) in Work Group: Member, Somatic Distress Disorders Work Group

Institutional Affiliation(s) Duke Medical Center

City, State: Durham, NC

Biographical Sketch:

Dr. Keefe is a Professor in the Department of Psychiatry and Behavioral Sciences and a member of the Cancer Prevention, Detection, and Control Program of the Duke Comprehensive Cancer Center. Dr. Keefe directs an active clinical research program concerned with the behavioral assessment and treatment of patients having acute and persistent pain. Dr. Keefe played a key role in the development of clinical pain services and pain research programs at Duke Medical Center. For 20 years he directed the Pain Management Program and was a leader in the development of Duke Medical Center's multidisciplinary pain programs (both out-patient and in-patient). Dr. Keefe has developed and refined a number of treatment protocols for persistent pain conditions (e.g. cancer, arthritis) including spouse- and partner-assisted pain coping skills training interventions. Dr. Keefe has a keen interest in alternative interventions for managing pain (e.g. yoga-based interventions, forgiveness-based interventions, etc.) He has published over 200 papers, as well as 43 book chapters and 3 books on topics ranging from pain during mammography to the assessment of cancer pain. He has served on numerous NIH Study Sections and recently completed his term as Chair of the NIH Behavioral Medicine Interventions and Outcomes Study Section.
